Preface:

I am actually **anti-resume**. I feel that resumes rarely reflect the actual experience and personality of a person. I also believe each company, product, and team introduces a new set of challenges. I think it's better to approach new opportunities with a **beginners mind**.

*Not all experience listed below. Only to match AngelList will update eventually.

Experience

Founder

GrowthEngine

This was the LLC which I utilized as a freelancer developer and also did a lot of SEO, PPC, analytics, retargeting, referral and everything else that companies hired me to do in order to grow their business.

Product Manager

NaMaYa

All things Growth + Product. From website development, to server management on the technical side. I was also in charge of all marketing from email to automation.

Shopify Developer

TACKMA

I worked with the person they contracted to move them from WordPress to Shopify. It was a large project and my friend Kevin who did the project brought me onboard to ensure it was done on time and done right.

Growth Engineer

NoLabelsWatches

Nathan from NoLabel Watches brought me on board to do random jobs around Shopify. And to help them with marketing. I set up a referral campaign, improved social media, ran ads and did work on their SEO.

Executor

VetLabels

My family owns this business and I run every aspect of it.
